

Mallory Becker (she/her)

UX/UI Designer. Research Believer. Initiator. Empathizer.

Experience

Senior Product Designer

Stord, June 2025 - Present

- Lead and created all designs for the AI Team, designing a brand, chat, search, inbox, and dashboard experiences
- Took over all design efforts for the company for a 3 month period, while interviewing candidates to create a strong team of designers
- Lead the design efforts for the OMS team to ensure a quality and competitive enterprise product
- Initiated user research efforts in Fullstory and Datadog

Senior User Experience Designer

Ware2Go: A UPS Company, Oct 2021 - June 2025 (3yrs, 10m)

- Worked as the only designer for the company for a year and a half
- Pitched, designed, and completed a redesign of the entire enterprise product suite
- Took charge of the design process from initial ideas to go-live in production, monitored features after
- Designed and created 4 completely new web products and 1 commerce app
- Initiated and taught UX design heuristics and user research basics to both the Product and FE engineering teams
- Trained a FE engineer as my intern
- Initiated and conducted all quantitative and qualitative user research efforts, company-wide
- Worked with Marketing to produce micro-site

Graphic Designer

Contract work, Dec 2017 - Oct 2021 (3yrs 10 mos)

- Produced marketing graphics, logos, social media posts, user-facing forms, office poster and stationary, PowerPoint templates, engineering machine decals, animated video banners, etc...

Jr. User Experience Designer, Jr. Project Manager

InReality, Nov 2016 - Dec 2017 (1yr 2 mos)

- Researched, ideated, prototyped, and presented kiosk UI to Home Depot Corporate for collaboration with Simmons BeautyRest
- Managed design projects, assigned to-do's for each department, and lead the order and shipping process for a newly obtained business

What my boss says...

"Mallory's **work quality greatly exceeds expectations**. She delivers high quality designs at a fast pace to the Product and Engineering teams that demonstrate her understanding of user needs. She has taken a proactive lead to educate the teams in design, which has only enhanced her work quality."

Chris Dikes
VP of Product @ Ware2Go

My aim is always to help-

Help a customer succeed, help a business flourish, help a coworker understand. How can I help you?
